

## SRI Modul No. 1 MC

### Realtime HD Wireless Video Free your creativity

SRI wireless HD video interface makes it possible to transmit uncompressed HDTV and video data up to 1080p in the license free 5 GHz band and non line of sight.

For the first time, this technology creates a radio standard that achieves the outstanding video quality of the HDMI™ and 3G-SDI used on cable - without video delay (lip sync- ing) and with low energy consumption.

SRI Modul No. 1 is the professional answer to the needs of the film and television production sector. The extremely small and light design allows more freedom of movement with substantially lower weight than previous systems.

The modules are quick and easy to mount on cameras and to the set using 3/8-inch screws.

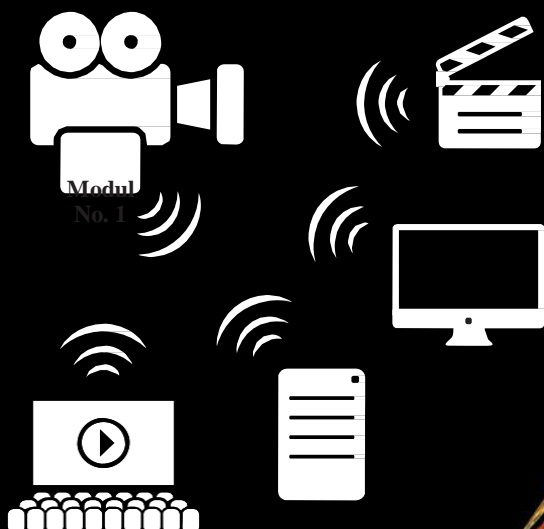

Our know-how makes it possible to satisfy individual customer wishes.

Smaller adaptations are possible at any time. SRI Modul No. 1 and let the extra power with low weight inspire you.

#### The highlights:

- Multicast up to 4 receiver
- Realtime Wireless
- Full HD quality
- Robust and reliable transmission
- No line of sight required
- Small form factor
- Easy to use (Plug-and-Play)

### SRI Introducing MultiCast

---

## Technical details Transmitter/Receiver

---

### Audio

Embedded Audio over SDI

### Band

5180 - 5825 MHz

### Frequencies

DFS Frequencies

5.27 ~ 5.55 GHz and 5.67 GHz for EU & US

### Modulation

OFDM / QAM

### Housing protection class

IP41 / IP54

### Mounting Options

3/8" thread, optional Velcro

### Operational Temperature

0°C ... 40°C, 10%~90% humidity

### Storage Temperature

-40°C ... 85°C, 10%~90% humidity

### Power

HR10

XLR (via adapter cable incl.)

10,5 V – 36 V DC / 5-6 W

### Product Regulation

CE, FCC, ISO 60601 (MEDICAL planed)

### Range

up to 100 m, line of sight

### Size

146 mm x 117 mm x 28 mm

### Video Interface

HD- and 3G- SDI

### Video Resolution

1080p60; 1080p50;

1080p30/29.97;

1080p25/24.97; 1080p23.98/24;

1080i60/59.94; 1080i50;

1080psf30; 1080psf25;

720p60; 720p50

### Weight

250 g
